

Interview

Notes/Structure for interview:

- Greet Participant. (Dr. Bobby Bazaad) Thank them for being there.
- Brief introduction of each group member present.
- Start questions.
- Note down answers (record with permission) for transcript and analyses.
- Let the conversation flow.
- Take turns asking questions if desired.
- Adapt further questions according to answers from participants (no need to stick to the strict script, let it flow).
- Move to the next question if the conversation dies or ends.
- The interview should take 30 mins.
- Thank the guest for participating.
